

PH - Pipes with inspection hatch

Light gauge Galvanized piping system – Pipes and silencers

Specifications

Material: Galvanized steel

Surface: Z275

Hatch dimensions: A x B, in table

Length (L): 750 mm

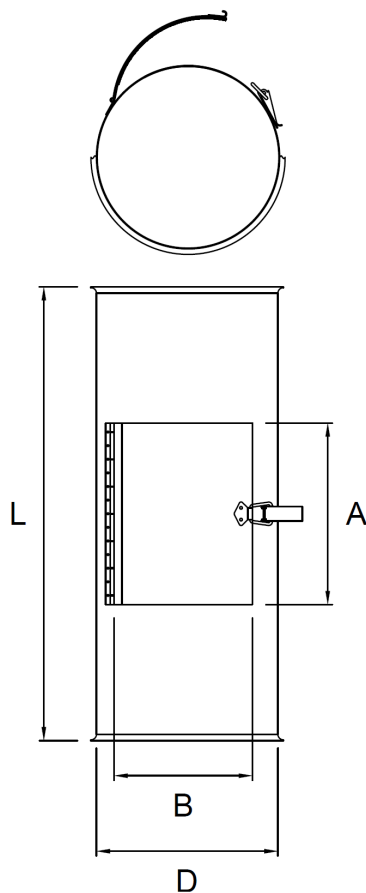

Description

Pipes are laser seam welded. Beadings on both ends of the pipe, allow for assembly with fitting rings. Alternatively, loose flanges can be used for assembly.

Hatch allows for inspection and access to inside of system.

Hatch include seal.

Loose hatches upon request.
